

Managing Bill Pay Users in Business Online Banking

Only Company Administrators have permission to add and edit Bill Pay Users in Business Online Banking. Cambridge Savings Bank first establishes the Company Administrator’s Bill Pay profile, and then the Administrator is responsible for adding additional Bill Pay Users.

Instructions for how to add and edit Bill Pay Users in Business Online Banking are outlined below.

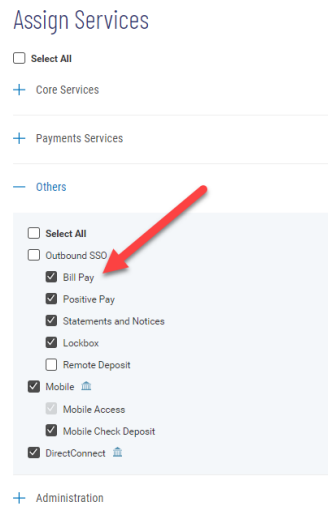

The Company Administrator must first permission the User to access Bill Pay within Business Online Banking.

1. From the **Navigation** menu, select **User Management**. In the User List view, locate the User that you want to grant permission to and use the **Action** button to select **modify**.

2. From the **Modify User** screen, click next to access the **Assign Services** screen.
3. Under the **Assign Services** list, click on the + to expand the options under **Others**.
4. Under **Outbound SSO**, check off **Bill Pay**.
5. Click next to advance to the limits screen.
6. Click next again to advance to **review the user information** screen.

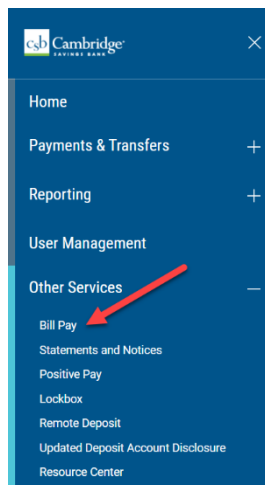

7. At the bottom of the **review user information screen** click save.

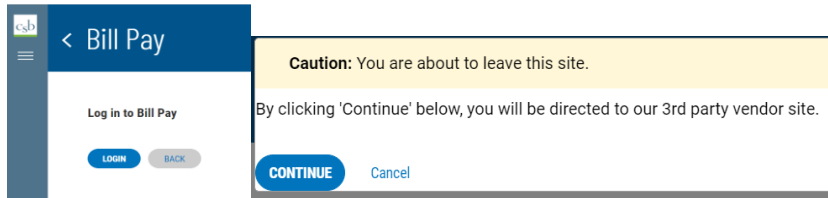

Important Note:

Both the Company ID and User ID are needed when establishing the Bill Pay User on the Bill Pay System. The IDs are case sensitive and must match exactly what is established in the Business Online Banking system. The Company Administrator can capture the User's ID from the Edit User Information Screen.

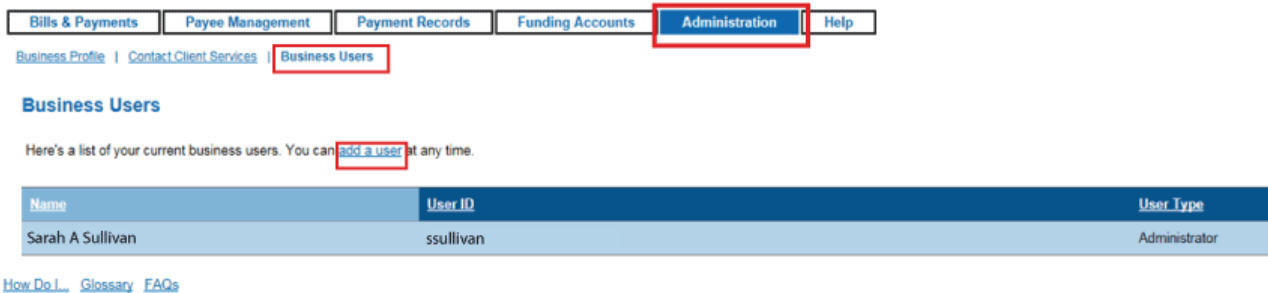

8. Once the Bill Pay service is added to the User's permissions, go to the **Navigation** menu, select **Other Services**, and select **Bill Pay**.

- From the **Bill Pay** screen, click the **Login to Bill Pay** button. A pop up will display warning you that you are leaving this site and being directed to a 3rd party site. Click **Continue**.

- From the Bill Pay homepage, click on Administration, and then select the Business Users option. From the Business Users page, click **add a user** to add a new Bill Pay User.

- On the **Add a User** page, complete the **User Information**, **Login Information**, and **Privileges** (including account numbers, approval limits, authorizations, and reports) sections.

Add a user

Please enter information for this user and then click "Add user."

User Information

First name: Sarah
 Middle initial:
 Last name: Sullivan
 Social Security number: (nnn-rr-nnnn)
 Date of birth: (mm/dd/yyyy)
 E-mail address: ssullivan@test.com
 Home phone:
 Work phone:
 User type:
 Administrator - Unlimited access
 User - Limited access
 Additional contact - no site access

Login Information

User ID: testssullivan
 Password:
 Password requirements:
 • Must be at least 8 characters in length.
 • Must include at least 1 letter and 1 number.
 • Must include at least 1 uppercase and 1 lowercase letter.
 • Cannot include spaces.

Make Payments:
"Make Payments" can be set to any amount up to \$9,999.99.

Approve Payments:
If "Approve Payments" and "Make Payments" are selected, then dual control is not required for this User when they're making or approving payments.

If a User has only "Make Payments" authorization, another User will need to approve the payments for processing.

13. Once the Company Administrator clicks **Add user**, an **Add User Confirmation** message will appear at the top of the screen confirming that the User was successfully added.

Please review the User's Bill Pay confirmation details and ensure all the information is accurate. If edits need to be made, the Company Administrator can click **Edit this user** at the bottom of the page.
